# Ocean Shipping Container Availability Report

A weekly publication of the Transportation Services Division, AMS  
United States Department of Agriculture

[www.ams.usda.gov/oscar](http://www.ams.usda.gov/oscar)

*August 29, 2012*

**Understanding this Report P.2**

**National Overview Maps P. 3-5**

**Container Availability by Location:**

Charleston, SC	P.6
Chicago, IL	P.7
Cincinnati, OH	P.8
Columbus, OH	P.9
Dallas, TX	P.10
Denver, CO	P.11
Houston, TX	P.12
Kansas City, MO	P.13
Los Angeles and Long Beach, CA	P.14
Memphis, TN	P.15
Minneapolis, MN	P.16
New Orleans, LA	P.17
New York, NY	P.18
Norfolk, VA	P.19
Oakland, CA	P.20
Savannah, GA	P.21
Seattle, WA	P.22
Tacoma, WA	P.23

## Weekly Container Overview

- Hurricane Isaac made landfall near Plaquemines Parish yesterday evening, overtopping some levees and leaving much of the area without power. As of 1:00 pm, Hurricane Isaac was still lashing New Orleans with wind gusts of 80 mph. At that time, it was moving very slowly, at 6 mph, over Southeastern Louisiana near Houma. By late this afternoon or evening, Isaac is forecast to finally weaken to a tropical storm and become a tropical depression by Thursday night as it leaves Louisiana into Arkansas. Port facilities remain closed until the storm passes. Post-storm assessments of facilities and river navigation may be delayed by the widespread power outages.
- A large decrease in container availability is expected over the next 3 weeks for the Port of New Orleans and Houston.
- Over the next 3 weeks, the Ports of Los Angeles/Long Beach and New York are expected to have the most available containers among the port locations reported. Availability for all equipment types is, however, expected to have a slight decrease at these locations during the next 3 weeks.
- Among the inland locations reported, Dallas and Chicago are expected to have the most containers available over the next 3 weeks. Availability is estimated to remain unchanged for all container types.
- This week's data show Los Angeles/Long Beach and New York as the top 2 locations for refrigerated equipment. Availability of 40ft High Cube containers is expected to see strong increases in Chicago, Dallas, Kansas City, Memphis, New York and Savannah. Availability of 20ft dry containers is expected to see strong increases in Dallas, Denver, Memphis and New York. Decreases in 20ft container availability are expected in Houston, New Orleans and Memphis.
- Significant increases are expected over the next 3 weeks for 40ft standard containers in Dallas and New York.

## Understanding this Report

The weekly Ocean Shipping Container Availability Report (OCSAR) provides a snapshot of container availability for westbound transpacific trade lanes at select intermodal locations around the country. The data presented in this report are gathered from the 10 member carriers in the Westbound Transpacific Stabilization Agreement (WTSA). The WTSA carriers include APL, COSCO, Evergreen, Hanjin Shipping, Hapag Lloyd, Yang Ming Transport Corporation, OOCL, NYK Line, K Line, and Hyundai Merchant Marine.

- The data are estimates of container availability per week by the participating carriers. The carriers determine container availability by comparing current supplies at each of the 18 intermodal locations with the demand for these containers based on up-to-date bookings or reservation information in the westbound transpacific trade lane.
- Each week, participating carriers report the estimated number of containers available for the current week (W1) as well as estimates for the subsequent 2 weeks (W2 and W3).
- Maps on pages 3–5 offer a national overview of weekly container availability, as well as an average of availability over the past 6 months. The weekly national data are derived from the sum of the individual carrier responses at each intermodal location.
- Individual carrier responses are presented by location on pages 6–23 and have been sorted from largest to smallest. To maintain carrier confidentiality, specific carrier identification is not provided.
- Carrier responses showing negative numbers, such as -29, should be interpreted as meaning that 29 containers are needed by shippers but the carrier is not able to supply them. A positive number, such as 64, would mean 64 containers are available that are not demanded. An indication of 0 means the carriers have the exact amount of containers needed based on current supply and demand estimates.
- In addition to the weekly container availability data, the participating carriers provide average weekly throughput data for the past 6 months. These data help readers understand the aggregate flow of containers that have moved through the 18 select locations by the 10 participating carriers over the previous 6 months. These data will only be updated every 6 months.
- Availability levels are subject to change, and may be affected by delays in return of equipment to carriers by shippers or consignees, and by free time restrictions imposed by railroads. Due to the dynamic nature of the container industry, carriers cannot be held responsible for the level of availability at the time of inquiry.
- Data presented in the report do not imply availability of chassis.
- Container availability estimates represent availability for all export cargo, not just agricultural products.
- USDA collects these data on a voluntary basis and cannot be held responsible for the status of container availability when a reader makes inquiry with an ocean carrier. USDA relies on the participating ocean carriers to ensure the data is accurate.
- Terminology:
  - 20ft Dry Container (20ft): A standard shipping container that is 20 feet long.
  - 40ft Dry Container (40ft): A standard shipping container that is 40 feet long.
  - 40ft High-Cube (HC): A shipping container which is 40 feet long and 9 feet, 6 inches tall (1 foot taller than a standard 40ft dry container).
  - 40ft reefer: A refrigerated shipping container which is 40 feet long.
  - 20ft reefer: A refrigerated shipping container which is 20 feet long.
  - Chassis: A wheeled frame to which a shipping container can be locked for storage or movement. (Plural chassis)

The U.S. Department of Agriculture (USDA) prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex (including gender identity and expression), marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
